Internal Audit Report to the Board of Supervisors/School Board

Why We Did This Review

County Administrative Procedures require the Auditor to furnish the County Administrator and School Superintendent with a summary of all material unresolved comments, recommendations, and management responses on a regular basis.

Summary reports have been provided and meetings will be scheduled with County and School division and department management if desired. Please note certain recommendations may be identified as Freedom of Information Act (FOIA) exempt. FOIA exemption applies to certain material related to personnel, security of systems, or security of facilities.

Department management responds to all findings as reports are issued. Department management also reports progress on resolving audit recommendations throughout the year and updates Internal Audit. Internal Audit's recommendation database has a steady flow of ins and outs throughout the year as reports are issued and as management completes actions to address items.

The Office of Internal Audit will continue to address open recommendations through correspondence with departments and future audit work.

FY2017 Audit Follow-up

What We Found

Audit Follow-up

Follow-up was conducted on open audit recommendations from prior years as well as those issued during the 2016 calendar year. Departments continued to make progress addressing audit recommendations. Most audit recommendations are addressed by management in less than a year. However, certain items are long-term in nature by design and can extend beyond a department's existing resources. These longer term items can require multi-year funding, technology investments, staff resources, training and development, and policy and ordinance considerations.

- 78% of the 120 new recommendations issued in calendar year 2016 are closed.
- Of the remaining 74 cumulative open items, management estimates completing 89% by December 31, 2017, and 97% by December 31, 2018.
