

# Thoroughfare Plan

Approved May 22, 2019 by the Board of Supervisors

## Thoroughfare Plan Map Legend

| CLASSIFICATION             | EXISTING ROAD | PROPOSED ROAD                      |
|----------------------------|---------------|------------------------------------|
| Limited Access (200')      |               |                                    |
| Interchanges               |               |                                    |
| Major Arterial (120'-200') |               |                                    |
| Major Arterial (90')       |               |                                    |
| Collector (70')            |               |                                    |
| Collector (60')            |               |                                    |
|                            |               | Corridor of Statewide Significance |

A detailed copy of this plan can be obtained from the Chesterfield County Transportation Department or the county website.

Right of way widths may need to be increased based on the Bikeways & Trails Plan (Chapter 14). Exact right of way widths and proposed road alignments should be verified with the Chesterfield County Transportation Department.
