

## Gas Projects – Required Inspections

GAS PROJECTS					
Project Type	Rough-in Gas	Final Gas	Propane Tank <sup>1</sup>	Product Line <sup>1</sup>	Groundwork <sup>2</sup>
Adding appliances and equipment for an addition	X	X			
Installing new appliances and equipment for a new house	X	X			
Replacing gas fired equipment (water heater, furnace, boiler, etc...)		X			
Supplying gas for a generator or pool heater	X	X			
Installing gas logs	X	X			
Installing a propane tank where one did not exist			X	X	
Installing a larger tank than what was originally there			X		
Replacing or altering gas piping	X	X			

<sup>1</sup>A tank and product line inspection is required when a new (temporary or permanent) is installed.

<sup>2</sup>A groundwork inspection is for any gas piping installed below grade including under a concrete slab.
