NO DEFICIENCY LETTER

**Re: Taylor Road Landfill - Chesterfield County, VA
Solid Waste Permit No. 270**

Dear Mr. Cox:

On July 11, 2019, the Virginia Department of Environmental Quality Piedmont Regional office staff conducted a compliance inspection of the solid waste management facility operating under SWP 270. During this inspection, the facility was evaluated for compliance with the Virginia Waste Management Act, Va. Code § 10.1-1400 *et seq.* ("Act"), the Virginia Solid Waste Management Regulations, 9 VAC 20-81-10 *et seq.* ("Regulations") and SWP 270.

During the inspection, no apparent violations of the Act, Regulations, or SWP 270 were observed. A copy of the inspection checklist is enclosed.

If you have any questions, please contact me at (804) 527-5092 or katy.dacey@deq.virginia.gov.

Sincerely,

A handwritten signature in cursive script that reads "Katy T. Dacey".

Katy T. Dacey
Solid Waste Compliance Inspector

General Comments

| Reference | Comments |
|---------------------|--|
| 10.1-1408.1 | Disclosure Statement - The facility's disclosure statement is updated as required and listed at the bottom of the report. |
| 10.1-1408.2 | Operator Certification - The facility has associated licensed operators as required and are listed at the bottom of the report. |
| 20-81-80 | Waste Assessment Program - The 2018 Solid Waste Information Assessment report was submitted on February 28, 2019, prior to the March 31 deadline. |
| 20-81-100.E | Unauthorized waste program and inspection - Unauthorized waste inspections were reviewed from January 7, 2019 – July 10, 2019 and were observed to meet the frequency requirement. The facility conducted 2 unauthorized waste inspections per day. |
| 20-81-140.A.16 | Facility self inspections - Facility self inspections are conducted daily, weekly and monthly. All self inspection records were reviewed from January 8, 2019 – July 10, 2019 and were observed to be sufficient. |
| 20-81-140.A.17 | Record maintained of waste received and processed - Records of waste received and processed were reviewed from April 2018 - August 2018. The facility received and landfilled the following: January 2019 - 11,025 tons February 2019 - 9520 tons March 2019 - 11,059 tons April 2019 - 12,215 tons May 2019 - 12,732 tons June 2019 - 12,082 |
| 20-81-485 | Operations Manual - The facility's Operational Manual was reviewed and observed to contain all required information. The Manual was certified with current operations and regulatory requirements on January 8, 2019 by Greg Harris. Annual recertification is due no later than January 8, 2020. |
| 20-81-530 | Permittee recordkeeping and reporting - No deficiencies to the permittee reporting or recording requirements were observed during the inspection. |
| 20-81-110.B | Prohibited waste - No unauthorized waste was observed during the inspection. The facility accepts CDD waste, land clearing debris, shred, split or halved tires, white goods and non-friable asbestos. |
| 20-81-130 | Facility design / construction - Design and construction requirements were observed to be sufficient in accordance with regulatory requirements. |
| 20-81-140.A.1,4 | Safety and fire control - Safety meetings are conducted on a weekly basis. Safety meeting records were reviewed from January 8, 2019 to July 10, 2019 and were observed to be adequate. |
| 20-81-140.A.6 | Pollutant discharge - No pollutants or solid wastes were observed or reported entering into surface waters, groundwaters or waters of the United States. |
| 20-81-140.A.7 | Stormwater control system maintenance - All run-on/run-off control systems were observed to be adequately maintained. |
| 20-81-140.A.8,14-15 | Facility operation, maintenance, and training - Facility access is controlled by gate, fencing and natural barriers. The office is staffed during operational hours Monday - Saturday. No access issues were noted during the inspection. Facility appurtenances were observed to be properly maintained and operated. One compactors, one dozer, one excavator and one water truck were observed operating at the working face or in surrounding areas. |
| 20-81-140.A.9-13 | Hazard and nuisance control - No off-site or on-site odors were observed during the inspection. Facility staff stated two odor complaints had been received in July 2019. Aerators were in operation in lagoons #1 and #3 during the inspection. Facility staff stated aerator in lagoon #2 was currently being repaired. No salvaging was observed during the inspection. |
| 20-81-140.C | Compaction and cover - The working face appeared to be sufficient in size and adequately compacted. The facility was placing waste in Cell P. The small saplings were observed to be removed on the western side of Cell B. |
| 20-81-610-660 | Special Waste - No special waste requests have been received since the previous inspection. No special wastes were observed on site during this inspection. |
| 20-81-160 | Closure requirements - Final capping activities for Cells A, B, C, D and F to include topsoil stockpiles were observed during the inspection. |
| 20-81-200 | Decomposition gas control - Monthly landfill gas monitoring events were conducted on February 13, 2019 and May 30, 2019. All monitoring records observed indicated 0% methane in facility probes and structures. |
| 20-81-210 | Leachate control - Leachate collected is stored in lined lagoons (#1, #2 and #3) and pumped and hauled to Proctors Creek Wastewater Treatment Plant. Leachate volume records were review from January 2019 - June 2019. Monthly totals of leachate hauled are listed below. January 2019 – 480,000 gallons February 2019 – 792,000 gallons March 2019 – 546,000 gallons |

| | |
|-----------|---|
| | April 2019 – 330,000 gallons May 2019 – 228,000 gallons June 2019 – 66,000 gallons |
| 20-81-250 | Groundwater monitoring program - All groundwater monitoring wells in the compliance network were observed to be label and locked. |
