### Comprehensive Plan – Land Use Plan Designation

The Comprehensive Plan designates the Property for Medium-High Density Residential, which suggests the Property is appropriate for residential development at a maximum density of 2.0 to 4.0 dwellings per acre.

### Proposal

The applicants request conditional use to permit a business from the home to operate a two (2) chair beauty shop plus conditional use planned development for exceptions to ordinance requirements for parking setbacks. Approval for a business from the home for a one (1) chair beauty shop was granted in 2016 (Case 16AN0104) with a time limit of five (5) years. Due to an increasing client base and more demand for appointments, the applicants are requesting to expand their business in addition to seeking renewal of conditional use to continue operating.

They are proposing having of two (2) chairs in the beauty shop ([Condition 1](#)) with a maximum of two (2) stylists and one (1) assistant ([Condition 2](#)). No more than five (5) customers shall be permitted on site at any time during the beauty shop's operating hours, which are 8:00 a.m. to 8:00 p.m., Monday through Friday, by appointment only ([Conditions 6 and 3](#)). Eight (8) off-street parking spots located on the property will be used for the beauty shop (two (2) for stylists, one (1) for an assistant, and five (5) for customers) ([Condition 4.a](#) and [Exhibit A](#)).

### Ordinance Exceptions

The Zoning Ordinance requires that the minimum parking setback for parking in the Midlothian Fringe Design District in Office (O) and Business (C) Districts be no less than the front line of the building with the least setback on the lot with Perimeter Landscaping D planted in the setback (Sec. 19.1-376). The applicants are requesting an exception to the setback and landscaping requirements as the location of the parking area for the beauty shop use is in front of the building with the least setback on the lot. Also, since the parking encroaches on the setback, there is not room to plant the required landscaping ([Conditions 4.b and 4.c](#)). Therefore, the applicants are requesting a parking setback of zero (0) feet.

Figure 4: Parking for Beauty Shop for Case 21SN0705

Figure 4, above and included in [Exhibit A](#), shows the designated parking area used for the beauty shop and shows how the parking area does not meet the setback as it is not set back no less than the front line of the building with the least setback on the lot. The smaller beige structure on the left is where all activity related to the salon takes place. The larger brick building on the right is where the applicants reside.

## Site Visit Photos – Exhibit A

This picture shows the building used for the beauty shop (beige building on the left), the parking area, and the applicants' home (brick building on the right). There are eight (8) parking spaces and the parking area has been paved using concrete pavers.

Clients are encouraged to park directly in front of the beauty shop but are also able to park behind the vehicles of beauty shop staff, other clients or to the left of the salon if necessary. (Note: Beauty shop client traffic rarely, if ever, warrants this but it is an option should the maximum number of staff and clients be present.)

This picture shows the building used for the beauty shop. All activity for the beauty shop takes place in this building. Inside are two full stations (“chairs”) – two (2) hair washing chairs, two (2) drying chairs, and two (2) barber chairs.
