

Stormwater Compliance Table

Site Area (acres)								
Required Removal for the site (lbs)								
Total Load Removed (lbs)								
Offset Nutrient Credit								
Offset Generating Facility								
Amount of Phosphorous Purchased (lbs)								
Equivalent Nitrogen Amount (lbs)								
8-digit HUC of Generating Facility								
	BMP #1				BMP #2			
BMP Type (e.g. rooftop disconnect, grass channel, bioretention)								
BMP Service Area (list sections/phases)								
Design Removal Efficiency (%)								
Drainage area used for sizing BMP (Acres)	Soil Type	Open Space	Managed Turf	Impervious	Soil Type	Open Space	Managed Turf	Impervious
	A				A			
	B				B			
	C				C			
	D				D			
	Total				Total			
Pervious Acres Treated								
Treatment Volume (cf)								
Load Removed (lbs)								
Location of BMP (Lat/Long)								
Receiving water								
VAHUC6								
MS4 Operator								
TMDL								
Downstream BMP								
Location of storm sewer outfalls 30 inches in diameter and greater (excludes culverts)
